ADOBE® ACROBAT® 9 PRO EXTENDED + XCELSIUS® PRESENT

Rich, engaging PDF communications. Actionable visualizations. Better decisions.

Create and share professional work with virtually anyone, anywhere. Unify the widest range of content—including documents, e-mail, images, audio, video, 3D, maps, and Xcelsius data visualizations—in a single compressed PDF Portfolio. Collaborate through shared document reviews. Create interactive forms and collect data easily. Protect and control sensitive information. Extend Acrobat functionality to users of Adobe Reader® software. Create engaging, interactive data models with Xcelsius Present.

Top bundle features

- Create interactive on-demand presentations with Adobe Presenter software.
- Combine multiple files in a single PDF Portfolio.
- Use professional templates for PDF Portfolios.
- Convert video to FLV for playback in PDF files.
- Enjoy support for 3D content and interactive PDF maps.
- Create dynamic data visualizations and what-if scenarios with Xcelsius Present

Acrobat 9 Pro Extended + Xcelsius Present includes:

- Adobe Acrobat 9 Pro Extended
- Adobe LiveCycle Designer ES
- Adobe Presenter
- Adobe 3D Reviewer
- Adobe 3D Capture Utility for UNIX®
- Xcelsius Present by Business Objects, an SAP company

Create interactive, on-demand presentations

Use Adobe Presenter software, included with Acrobat 9 Pro Extended, to liven up your Microsoft PowerPoint slides. Add video, voice-over, demos, and interactive quizzes to keep your audience engaged and improve knowledge retention. Save your presentation as a PDF file so people can view it wherever they are, whenever it's convenient.

Unify the widest range of content

Assemble documents, drawings, e-mail, Xcelsius data models, and rich media—including video, audio, 3D, and maps—in a single compressed PDF Portfolio. Choose one of many professional templates to quickly integrate content, define navigation, incorporate branding, and add polish to your PDF Portfolio.

Drive better decision making

Use Xcelsius Present, included in this special bundle with Acrobat 9 Pro Extended, to simplify complex data into interactive dashboards, charts, and maps. Enable collaborative what-if scenario analysis using graphical sliders, gauges, and input boxes to demonstrate potential performance and outcomes. Share these interactive data presentations with virtually anyone using free Adobe Reader software.

Easily share video in PDF files

Native support for Flash® technology can enable reliable, cross-platform sharing of video, animations, and applications in Acrobat and Adobe Reader. Convert a variety of video formats to FLV for playback in PDF files without needing a special media player.

Create and manage electronic forms

Convert paper, Microsoft Word, and Excel forms to PDF forms with automatic recognition of fillable fields. Use Adobe LiveCycle® Designer ES, a professional form design tool included with Acrobat 9 Pro Extended, to further customize and automate dynamic XML forms. Use Form Tracker to see when forms have been completed and who has completed them. Easily export data to Xcelsius Present, a database, or a spreadsheet for analysis and reporting.

Protect sensitive information

Control access to and use of PDF documents, assign digital rights, and maintain document integrity. Set document permissions to restrict printing, copying, and editing. Apply passwords to restrict document access. Use redaction tools to permanently remove sensitive information.

Adobe®

System requirements

Windows®

- 1.3GHz or faster processor
- Microsoft® Windows XP Home, Professional, or Tablet PC Edition with Service Pack 2 or 3 (32-bit and 64-bit); Windows Server® 2003 (with Service Pack 2 for 64-bit); or Windows Vista® Home Basic, Home Premium, Business, Ultimate, or Enterprise with or without Service Pack 1 (32-bit and 64-bit)
- Internet Explorer 6.0
- 512MB of RAM

Top reasons to buy Acrobat 9 Pro Extended + Xcelsius Present

Include Adobe Reader users

Enable users of free Adobe Reader software to digitally sign documents, participate in shared document reviews, and save forms locally.* By extending Acrobat functionality to Reader users, virtually anyone can participate in the workflows you initiate.

Protect your documents

Use passwords to help control access to PDF documents. Use permissions to restrict printing, copying, or altering. Save passwords and permissions as security policies that can be easily applied to new PDF files.

Permanently remove sensitive information

Use redaction tools to black out sensitive text, illustrations, or other information, permanently deleting the content from the PDF document. Inspect PDF documents for metadata, hidden layers, and other concealed information, and remove them before distributing to others.

Enable virtually anyone to access design data

Convert virtually any 2D or 3D design—including layers, dimensions, and metadata—into a single PDF file to share product data more easily and securely.

Manage and track document reviews

Gain the input you need through interactive document reviews that enable participants to see and build on each other's comments, which can be sorted by author, date, or page. Use the Form Tracker to monitor progress and participation.

Create engaging interactive data models

Use Xcelsius Present to replace confusing rows of data or static charts with interactive visualizations and perform on-the-fly what-if scenario analysis.

Synchronize document views

Ensure colleagues, clients, and partners are on the same page at the same time with the ability to co-navigate documents.

Compare PDF documents

Automatically highlight the differences between two versions of a PDF document, including text and images, so you can quickly and easily identify what has changed.

View and interact with PDF maps

Search, measure, and mark up geospatially enabled PDF maps. Discover the longitude and latitude by placing your cursor over a location.

Choose one of many professional templates—or create your own—to quickly integrate content, define navigation, and add polish to your PDF Portfolios.
