

# More4Less

Save More with Symantec™ Endpoint Protection, Symantec™ Mobile Management Suite, and Symantec™ Protection Suite

**More4Less gives you more protection for less money. You can secure your endpoints, including mobile devices, and prevent data loss at your email and web gateways while saving up to 45 percent.<sup>1</sup>**

More4Less gives you more ways to save. Save up to 45 percent on security solutions—more protection from mobile to gateway to help prevent data theft—and more savings over three years for the latest product upgrades and newest features. Simplifying and standardizing on Symantec:

- **Removes complexity**—standardizing on Symantec for endpoint, email, and web security removes the complexity of managing multi-vendor solutions.
- **Layers of security**—gives you stronger protection including Symantec™ Endpoint Protection, Symantec™ Mobile Management Suite, Symantec™ Mail Security for Exchange, and gateway virtual appliances for Messaging and Web security.
- **Protection for enterprise mobility**—with trusted protection at the device, app, and data layers, secure corporate data from data loss, malware, and unauthorized access.
- **Central intelligence and management**—efficiently manage your security with Symantec™ Protection Center, the unifying foundation for consolidated visibility, cross-product reporting, and real-time actionable intelligence.
