

Upgrade to Symantec Backup Exec™ 2010 for FREE. Exclusive Promotion for Backup Exec Customers

Symantec is offering a limited-time promotion for Backup Exec customers and previous customers who have lapsed in their maintenance and are interested in upgrading to the current version of Backup Exec 2010. By upgrading, you will immediately benefit from the latest V-Ray visibility for VMware and Hyper-V® Server and integrated duplication technologies delivered by Backup Exec 2010.

You will be automatically upgraded to Backup Exec 2010 for free when you purchase a Fast Forward two-year maintenance contract. This limited-time, exclusive offer enables you to save approximately 50 percent off the combined price of an upgrade and two years of Essential maintenance.

Terms and Conditions:

- Offer applicable only to existing and previous Symantec Backup Exec customers
- Offer valid 17 October 2011 through 31 January 2012
- Purchase of a Fast Forward two-year Essential maintenance contract required
- Offer not valid with any other promotional offer
- Offer valid in U.S. and Canada only
