

VMware Fusion 4

The #1 Windows-on-Mac Solution for Your Business

VMWARE FUSION BENEFITS

Software for Your Business - VMware Fusion provides an easy, proven and reliable way to run applications on Intel-based Macs from more than 200 different operating systems. Your employees get access to all the applications they need for increased productivity—such as Microsoft Office 2010, Access, Outlook, SharePoint and Internet Explorer—and all other in-house applications that run only on Windows or Linux.

No Additional Hardware Required - Save yourself from purchasing and maintaining additional PC hardware, and empower your employees with OS X, Windows and Linux applications. Reduce maintenance costs by managing fewer computers, and increase productivity by giving your employees all the applications they need on a single platform.

NEW IN VMWARE FUSION

Designed for OS X Lion - Whether you want to add your favorite Windows programs to Launchpad, experience them in Mission Control, view them in full screen or switch between them using Mac gestures, VMware Fusion 4 is designed to give you the best Windows experience on OS X Lion.

Even More Mac-Like - VMware Fusion 4 enhances the way you run Windows programs on a Mac. From the brand-new settings menu to the redesigned virtual-machine library and snapshot menu, everything has been refined to give users an even more Mac-like experience when they run Windows programs.

Better Performance and Faster Graphics - VMware Fusion 4 has been engineered to run Windows and Mac applications side by side with incredible speed and the reliability you need. As a 64-bit Cocoa application, it is optimized for today's multicore Macs and delivers 3D graphics up to 2.5x faster. VMware Fusion 4 is faster than ever.

VMware Fusion 4 for Business

VMware® Fusion® 4 makes it easy to run Windows, Linux and Mac applications side by side with incredible speed and reliability. Made by the virtualization leader and support for more than 200 operating systems, VMware Fusion 4 is the best way to empower your employees with all the applications they need to get the job done.

Why VMware Fusion?

Made by the Virtualization Leader

Get the speed and reliability that only the leader in virtualization can deliver. Used by 96 percent of Fortune 1000 companies, VMware has won more than 280 awards for its virtualization software.

Geared for Productivity

Experience Windows or Linux programs the same way you use Mac applications. Launch them directly from the Dock, Spotlight or Launchpad and view them in Mission Control. Easily interact with Windows and Linux programs using Mac shortcuts and OS X Lion gestures. The intuitive user interface and powerful features in VMware Fusion 4 turn a standard Mac into the ultimate productivity tool.

More Compatible than Ever Before

With added support for virtualizing OS X Lion as well as more than 200 other operating systems, VMware Fusion 4 will turn your Mac into the most compatible computer you've ever owned.

More than 90 New Features

- Run OS X Lion, Lion Server, Snow Leopard Server and Leopard Server in a virtual machine.
- Get turbocharged performance with up to 2.5x faster 3D graphics.
- Optimized for 64-bit multi-core processors.
- Run more than 200 operating systems on your Mac.
