# MILLIONS OF IMAGES.

Right inside your Adobe Creative Cloud apps.

Spend more time designing and less time managing your stock images. The Adobe Stock marketplace offers 40 million high-quality, curated photos and graphics to jump-start your creative projects. With Adobe Stock, you can purchase, access and manage high-res, royalty-free images directly from Adobe Photoshop CC, Illustrator CC, InDesign CC and other Adobe desktop apps.

World-class content.
Need a graphic for your comp or a layer for your composite? Search 40 million of the world's most beautiful images and graphics via Adobe Stock to find the perfect asset for your project.

Integrated right into your apps.

The Adobe Stock service is built right into your favorite desktop apps, so you can add images to your Creative Cloud Libraries, immediately access them across your desktop and mobile devices and even share them with your team.

In-app purchase.

Start with watermarked images to see how things look in your comps, and then buy the high-res versions right from inside your app. No more jumping back and forth between browser and app—just a few clicks and you're done.

Build your business.

Contribute to our growing marketplace. Your photos, illustrations and graphics can be discovered by millions of Creative Cloud members.

Flexible plans to fit your needs.

Purchase Adobe Stock as part of Creative Cloud for teams for the best value, or you can purchase a standalone plan or pay as you go.

- **Creative Cloud for teams Complete with Adobe Stock**
  This bundled plan includes our entire collection of creative apps and services, plus 10 royalty-free Adobe Stock images per user per month.

- **Adobe Stock add-ons: 10 images per month or 750 images per month**
  This plan is perfect for adding Adobe Stock to your existing Creative Cloud for teams membership. The 10-image plan even lets you roll over unused images to the next month for up to a year.
