

Softchoice vSphere Optimization Assessment

Achieve a highly efficient virtual environment

The **Softchoice vSphere Optimization Assessment** is designed to arm clients with a fact-based portrait of their current virtual environment. Led by Softchoice VMware experts, the vSphere Optimization Assessment provides visibility of the virtual environment so clients are able to ensure service levels, optimize resource usage, and proactively manage the dynamic virtual and cloud environments.

Discovery

- We leverage VMware's vCenter Operations Manager management tool to gather information about your existing vSphere environment

Analysis

- Softchoice technical experts evaluate findings and consolidates the broad data to identify areas to improve the virtual environment's efficiency, manage risk and improve health
- Sets actionable insights that are validated with a client findings and recommendations session

vSphere Optimization Workshop and Analysis Report

- Review business demands and current issues
- Review risks and remediation through guided data review and recommendations
- Structured review of the vSphere Optimization TechCheck and evaluate options with a Softchoice VMware subject matter expert

Client Benefits

- **Cut time to problem resolution** by 26%
- **Spot over-provisioned VMs** and cut IT admin costs
- **Save up to 30% on hardware** by increasing capacity utilization
- **Easily predict and respond** to future business needs

Who should be involved?

Softchoice recommends clients assemble a cross functional IT team with a senior IT leader sponsor that provides alignment to the issues, business drivers and guides prioritization.
