

Want 30% off? The best time to step up is NOW!

If you're using Visual Studio 2008 Professional Edition, it's time to step up! For a limited time, get 30% off when you purchase a Step-Up license from Visual Studio Professional with MSDN Premium to Visual Studio Team System 2008 Development Edition (or any other Team System Edition) with MSDN Premium.

Now you'll get even more bang for your buck. Team System 2008 Development Edition with MSDN Premium now comes with Database Edition — it's like getting two for the price of one!

Contact your reseller today and save 30% when you step up to Team System 2008 Development Edition today.

Offer Details

Details for the 30% Step-Up discount offer:

Valid December 1, 2008 to June 30, 2009; subject to change. Available to customers with Visual Studio 2008 Professional with MSDN Premium Subscription with active Software Assurance in one of the following Microsoft Volume Licensing Programs: Open Value, Select, EA. Customers in the Open Licensing program can qualify for offer by transitioning to Open Value, however no credit will be awarded for outstanding amounts on Open Agreements. Contact your approved Microsoft reseller for details. For details on Step-Up Licenses consult this [Step-Up License whitepaper](#).

Details for the Team Database Edition offer:

In a future version of Visual Studio Team System, Microsoft will combine the Database and Development editions of Team System into Development Edition. But by purchasing Visual Studio Team System 2008 Development Edition with MSDN Premium now, you can get both products today. Once purchased, both the Team System Development Edition and the Team System Database Edition software will be available for download from the MSDN Subscriber download site. Offer subject to change. Subject to local taxes and fees. No coupon or offer code required.

Get even MORE for less: Save 30% when you step up from any Team System Edition with MSDN Premium to Team Suite with MSDN Premium!

Are you using a Team System Development, Architecture, Test or Database Edition? You might be missing out on some key features that will help your team collaborate even better – features that give you a quicker time-to-market and an increased ROI. Now you can save 30% when you purchase a Step-Up License from any Team System role edition with MSDN Premium to Team Suite with MSDN Premium. Team Suite with MSDN Premium includes all four Team System editions in one integrated suite, plus Expression Studio v2 (available through MSDN Premium Subscription).

Contact your reseller today and save 30% when you step up to Team Suite today.

Offer Details

2-for-1 Offer: Buy Team System Development Edition with MSDN Premium and get Database Edition — all for the price of one!

It's like getting two for the price of one. Does it get any better? Visual Studio Team System 2008 Development Edition is already well worth the price. Now we're sweetening the deal by **giving you Visual Studio Team System 2008 Database Edition – it's like getting two for the price of one.** So you have all the features that top developers use, AND you get the complete Database Edition to expand your capabilities.

These two editions can cost over \$10,000 together, but now you get both sets of functionality for the price of one.

Get Visual Studio Team System 2008 Database and Development Editions with MSDN Premium today and save. Contact your reseller.

Offer Details

In a future version of Visual Studio Team System, Microsoft will combine the Database and Development Editions of Team System. But by purchasing Visual Studio Team System 2008 Development Edition with MSDN Premium now, you can get both products today. Once purchased, both the Team System Development Edition and the Team System Database Edition bits will be available for download from the MSDN Subscriber download site. Offer subject to change. Subject to local taxes and fees. No coupon or offer code required.

Save up to \$500 on a MSDN Subscription. Get the tools you need at a great price.

MSDN subscriptions include invaluable development resources for developers and architects using Visual Studio Professional. With MSDN, you get priority access to new versions of Microsoft products, including developer tools, Microsoft operating systems, server software, productivity applications, exclusive access to pre-release products, technical support, upgrades to new versions of Visual Studio and more – for example:

- Both MSDN Premium and MSDN Professional include development and test licenses for Windows Server products, Windows Vista, Windows XP and SQL Server products.
- MSDN Premium Subscription also includes Office 2007 Ultimate, Expression Web 2 and Expression Blend 2 (with support for Silverlight™ 2 development) and a range of Microsoft server and Dynamics products.

For a limited time, save up to \$500 when you add a MSDN Premium or MSDN Professional subscription to Visual Studio 2005 Edition or Visual Studio 2008 Professional Edition license. Plus, if you start a new 2- or 3-year MSDN Premium or MSDN Professional Subscription today, you'll get Visual Studio 2010 when it ships.

Contact your reseller for an MSDN discount today.
