

# Microsoft EMS Accelerator

## Fast track your Enterprise Mobility Suite implementation

Cloud has become a common boardroom conversation related to productivity tools like Office 365. Big expectations are landing on IT's desk. The answer might be the cloud, but lots of questions remain about security of data, Identity and Single Sign On (SSO) as well as management of cloud devices, handhelds, and BYOD systems. Gathering inventory, deploying software, and enforcing security policies are services moving to the cloud, and the **Microsoft EMS Accelerator** can help you complete the journey with the comfort knowing your users are both productive AND secure.

Softchoice designed the Microsoft EMS Accelerator for clients who want to explore the requirements needed to implement Enterprise Mobility Suite. This engagement will help client's identify requirements needed for EMS, including:

- Azure Active Directory Premium (AADP) for SSO and Identity Management
- Azure Rights Management for information protection and data loss prevention
- Intune to manage PCs and mobile devices to provide availability of software and data, while enforcing corporate policy on any Windows, iOS, Macintosh, or Android device

Deliverables	Client Benefits
Creation of EMS tenant(s)	<ul style="list-style-type: none"> <li>• Ensures practical execution of policy standards is possible and supports the corporate requirements for balance of security and productivity for both corporate and BYOD devices and remote or mobile users</li> <li>• EMS subscription activation and access confirmation</li> <li>• License activation</li> <li>• Solution planning and EMS roadmap</li> </ul>
Identity management solution	<ul style="list-style-type: none"> <li>• Definition, design and implementation of identity management, SSO, and Multifactor Authentication(MFA) using AADP</li> </ul>
Intune management solution	<ul style="list-style-type: none"> <li>• Construction of mobile device management and software distribution solution in line with corporate policy for defined device and/or user set(s)</li> </ul>
Azure Rights Management Workshop	<ul style="list-style-type: none"> <li>• Practical workshop on executing Azure Rights Management policy</li> </ul>
Business Technology Review for EMS	<ul style="list-style-type: none"> <li>• Softchoice Solutions Architects determine how to continue to leverage EMS as an integration point for on-premise or Office 365/Azure systems as well as any other SaaS and on-premise apps in use or consideration in your organization</li> </ul>

### Why the Softchoice Microsoft EMS Accelerator works

Based on client feedback and real-world deployment findings, Softchoice created the Accelerator program to ensure repeatable methodology and adoption of feature-rich technologies. Softchoice has completed over 5,000+ projects throughout North America helping clients discover, plan, deploy, adopt and operate solutions. Using similar delivery best practices, the Microsoft EMS Accelerator improves returns and lowers risk through effective planning and alignment to desired business outcomes.

### Relevant Technology

Office 365, Azure, SSO  
Softchoice Cloud, Identity, BYOD  
MDM, Office, Active Directory

### Who Should Be Involved

Softchoice recommends clients assemble a cross-functional IT team with a senior IT leader sponsor that provides alignment to the applications, systems, and business drivers in coordination with the Softchoice team.

### Here's What Customers Are Saying About Softchoice Services

"Softchoice enabled us to take a complex project that had significant risk for our organization and allow us to deliver it within schedule while mitigating the risk. The organization was pleased with the outcome of the project and saw value in engaging Softchoice to deliver it."
