# Public Cloud TechCheck
## Evaluating the Impact of Public Cloud Infrastructure

**softchoice**

Softchoice's **Public Cloud TechCheck** helps clients precisely evaluate how an existing environment maps to potential public cloud offerings. For clients considering migrating an entire datacenter, or looking to target an existing development and test environment, the Public Cloud TechCheck provide the insight needed to justify projected effort supported by a formal cost evaluation and risk analysis led by a public cloud consultant. The TechCheck cataloges legacy silos of technology and arms clients with a fact-based portrait of the current state environment. Softchoice combines the collected data with technical experts spanning the data center and hybrid cloud to help plot the way forward.
