

Camtasia empowers you to make amazing videos—even if you’ve never made one before.

Record a video of your screen or bring in your own video footage. Then, use Camtasia’s drag-and-drop editor to easily create remarkable videos you can share with anyone. Keep your audience engaged by adding eye-catching animations, visual effects, music, and captions in no time.

How can everyone in your organization use Camtasia to communicate more effectively?

Training & Support

Stop repeating yourself! Create training videos that can be viewed again and again to save you time and make onboarding smoother.

Presentations & Demos

Have important information to share? Record your one-time presentation or webinar to create a video that can be viewed anytime on demand.

Marketing & Sales

Impress your customers with a polished video that you can produce right in-house—saving you money. Make engaging videos that represent your brand and clearly get your message across.
