

Microsoft Azure TechCheck Assessment

Evaluating the Impact of Microsoft's Cloud Infrastructure

Softchoice's **Azure TechCheck Assessment** helps clients precisely evaluate how an existing environment maps to Microsoft Azure. For clients considering migrating an entire data center, or looking to target an existing development and test environment, the Azure TechCheck provide the insight needed to justify projected effort supported by a formal cost evaluation and risk analysis led by a Softchoice Azure Consultant.

The Azure TechCheck catalogs legacy silos of technology and arms clients with a fact-based portrait of the current state environment. Softchoice combines the collected data with technical experts spanning the data center and hybrid cloud to help plot the way forward.

| Phase | Client Benefit |
|---|--|
| Discovery | <ul style="list-style-type: none"> Using an agent-less data collection tool to gather an end-to-end view of the existing server/storage infrastructure |
| Analysis | <ul style="list-style-type: none"> Softchoice technical experts evaluate findings and consolidate the broad data to identify potential barriers Sets actionable insights that are validated with a client findings and recommendations session Delivers a comprehensive view of impacted infrastructure |
| Public Cloud Workshop & Analysis Report | <ul style="list-style-type: none"> Review business demands and current issues Review risks and remediation through guided data review and recommendations Provide a structured review of the Azure TechCheck and evaluate options with a Softchoice Azure subject matter expert |
| Microsoft Azure TechCheck Summary | <ul style="list-style-type: none"> Workload summaries of data center Reporting on local divisions of environment, customized to business requirements A basic projected cost analysis on Azure migration |

To arrange for a Azure TechCheck, contact your Softchoice Account Manager today and request an appointment!

Who should be involved?

Softchoice recommends clients assemble a cross functional IT team with a senior IT leader sponsor that provides alignment to the issues, business drivers and guides prioritization.

Why Softchoice for Azure Planning?

- Cross-discipline expertise spanning leading vendors in data center, hybrid cloud and public cloud scenarios
- Architect and engineers carry over 10 year average tenure
- Proven IaaS planning methodology to connect on premise data center infrastructure investments with the potential of the cloud
- Day-to-day operations for over 400 core and hybrid infrastructure

"100% of organizations who engaged Softchoice for Cloud Services rated Delivery Methodology as valuable or better when compared to alternatives."
