

# Barracuda Security for Azure

## Real-time, Layered Security

As part of the shared security model, customers need to secure the applications or networks they are running or building in Microsoft Azure. That's where Barracuda can help.

### **WAF** Barracuda CloudGen WAF

#### The First Integrated, Proven, and Highly Scalable Security Solution on Microsoft Azure

##### Secure Web Applications in the Azure Cloud

- Comprehensive solution for application security
- Provides constant protection from evolving threats
- Granular identity and access management
- Scalable application security

### **FW** Barracuda CloudGen Firewall

#### The Industry's Most Advanced Cloud-Generation Firewall Solution for Microsoft Azure

##### Protect Network Perimeter in Cloud Environment

- Traffic access control (firewalling)
- Encrypted ExpressRoute
- Preserving low latency
- MPLS failure protection

*"The physical data center model no longer works for a company like ours. Microsoft Azure and the Barracuda Web Application Firewall provide everything that a dynamic company like ours requires."*

**Sarju Mashru**, Principal IT Operations Engineer, TalkTalk TV Store

#### Security Solutions for:

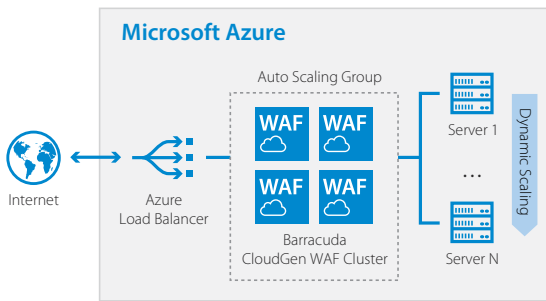

- Public-facing and custom web applications
- Infrastructure-wide secure connectivity
- Workloads with remote connectivity requirements
- Securely connected hybrid environments

# Enterprise-Grade Security for Azure Deployments

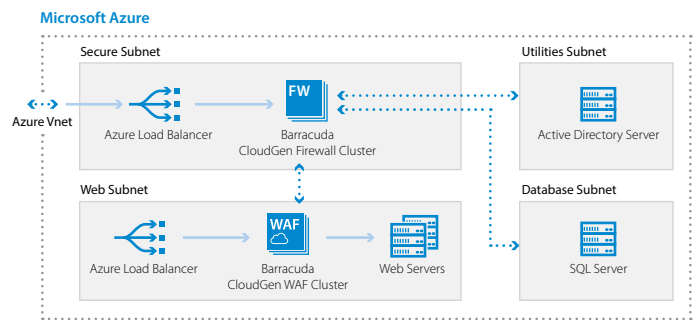

## Key Use Cases

- Full application security for web applications including custom built applications
- Secure elastic applications with dynamic scaling (deployment diagram below)
- Publishing SharePoint securely in Microsoft Azure
- Azure App Service (web, mobile, API)
- ADFS in Azure

## Key Use Cases

- Securing and connecting VNets in Microsoft Azure
- Secure high-performance VPN connections
- Deploying secure multi-tier network architectures (diagram below)
- IDS/IPS protection between VNets
- View, control, and log (for compliance) all traffic (in and out)
- Hybrid cloud with ExpressRoute providing security, reliability, and intelligence

## Deployed in Hundreds of Azure Accounts

- First Microsoft Azure Certified security appliance
- First security appliance in Azure Marketplace
- First security vendor to support new Azure networking and automation enhancements
- First security vendor to provide additional enhancements to ExpressRoute
- First security vendor to support AzureApps environment

## Why Barracuda?

Barracuda delivers enterprise-grade security with tremendous deployment flexibility as a Microsoft Gold Development Partner. Microsoft and Barracuda work closely to create a great customer experience and help customers leverage Barracuda security and storage solutions to protect and secure their assets in Azure. Barracuda also offers best-of-breed email management, archiving, and security for organizations utilizing Microsoft Office 365.
