

A business phone system that works the way it should

Dialpad Talk is the only business phone system built to help you have better conversations, no matter where they happen. With reliable call quality, seamless messaging, and call transcriptions all powered on your existing devices, staying in the loop at or away from your desk has never been easier.

Work doesn't stop outside the office so why should your phone system?

CONNECTED DEVICES

Whether it's a laptop, deskphone, or cell phone, we've got you covered. Switch between devices and get work done.

STAY IN SYNC

With automatic contact syncing between G Suite and Office 365, never second guess who's calling again.

KEEP TRACK WITH AI POWERED FEATURES

Who wants to take notes? Voice Intelligence, that's who. Automatically record transcripts and next steps based on real-time conversations.

CONNECTED DEVICES

- Answer calls and texts whether you're on a desktop, tablet, or cell phone
- Transfer calls, forward messages, record calls, and switch between devices in one click
- Mask personal numbers with your business line to ensure calls are answered no matter which device

STAY IN SYNC

- Automatically sync contacts from productivity platforms like G Suite or Office 365
- Access most recent events, docs, and emails shared between you and your contacts
- Mobile apps ensure that, regardless of device, you're always connected to your VIP customers

KEEP TRACK WITH VOICE INTELLIGENCE

- Generate comprehensive call summaries after every call
- Automatically detect action items to keep track of next steps
- Save important call highlights to share with your team

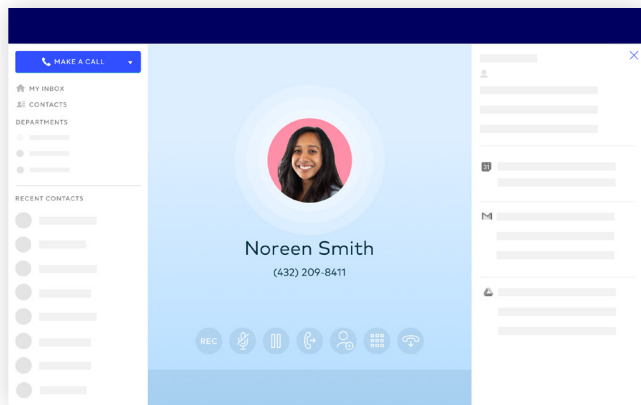

The cloud lets us deploy business tools that are user-friendly and consumer-first.
