

Managed Print Services TechCheck

Take printing off IT's to-do list

When it comes to managing print environments, cost reduction, control and convenience are most important. And when considering cost versus optimal operational efficiency, dealing with multiple locations, unpredictable downtime and over/underutilized devices is just a part of the picture. With IT resources tied-up in replacing toner cartridges or answering help desk calls on printer-related issues, it's time to take print off the IT help desk and free your staff to focus on more business critical tasks.

The Softchoice **Managed Print Services TechCheck** sets clients on the right path to optimize their printer fleet, improve workflows and cut unnecessary costs. It allows for overall management insight into the current print activities and serves to facilitate an internal dialog on how to streamline your print environment to reduce waste and right-size your device utilization.

Managed Print Services TechCheck helps clients assess current print hardware and consumable usage, evaluate network lifecycle, and offers recommendations on techniques to enable worry-free, efficient print management.

Phase	Client Benefit
Discovery	<ul style="list-style-type: none"> Evaluate your current print environment with agent-less data collection tool to gather an end-to-end view of the print fleet and utilization.
Analysis	<ul style="list-style-type: none"> Softchoice technical experts evaluate findings and consolidate the broad data to identify potential savings and new strategies. Set actionable insights validated with client findings and recommendations session. Deliver a comprehensive view of impacted infrastructure.
Managed Print Services Workshop & Analysis Report	<ul style="list-style-type: none"> Review business demands and current issues. Interpretable roll-up of print environment including comparative insight on options to prolong fleet lifespan and alternative strategies. Detailed information on print statistics, print hardware and usage (i.e. monthly volumes), including client specific devices, pages and costs. Evaluation of pain-points to identify areas of fleet optimization and risk reduction. Structured review, evaluation and recommendation of TechCheck options with Softchoice Print Management subject matter expert.

Who should be involved?

Softchoice recommends clients assemble a cross functional IT team with a senior IT leader sponsor that provides alignment to the issues, business drivers and guides prioritization.
