

Softchoice HPE Asset Review

Manage your HP Environment with Softchoice HPE Asset Review

The Hewlett Packard Enterprise Asset Review is a consultative engagement that provides support in understanding your HPE environment by contract management, product life cycle management and assistance in roadmapping your environment to meet business growth and enhancements.

The Softchoice HPE Asset Review

- Provides insight into your registered HPE hardware
- Provides insight into your active and expired contracts
- Analysis of the life cycle on your registered products
- Provides a summary with recommendations to optimize your HPE environment and contracts

Client Benefits

- A consolidated view of the HPE devices within the environment along with reporting on gear that may lack maintenance coverage or is close to end of support life
- Recommendations provided by Softchoice HPE certified consultants for consolidating, co-termining and managing contracts
- Roadmap for future network needs, including inventory verification and planning for expanding or updating of your environment

Who should be involved?

Softchoice recommends clients assemble a cross functional IT team with a senior IT leader sponsor that provides alignment to the issues, business drivers and guides prioritization.

How to get started

To start your HPE Asset Review today, simply fill out the letter of authorization plus an email from the customer authorizing Softchoice to pull your HPE contract summary detail report.
